

FGFR2 synteny rescue-case cards

Gorilla gorilla gorilla

Gorilla gorilla gorilla FGFR2 is retained as a primary locus after sequence rescue and local synteny support.

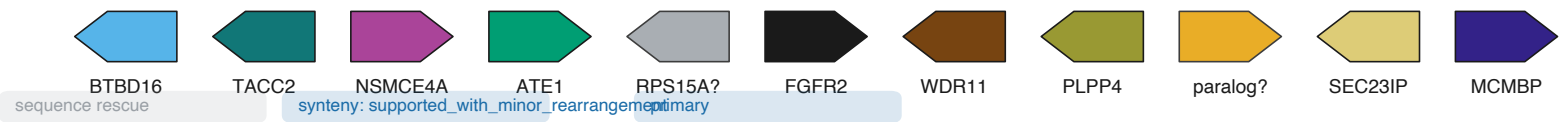

Canis lupus familiaris

unresolved: no source-compatible validated candidate

Canis lupus familiaris FGFR2 is retained as a primary locus after sequence rescue and local synteny support.

Pongo abelii

unresolved: no source-compatible validated candidate

Pongo abelii remains supplement/review; local synteny (supported_with_minor_rearrangement) is reported but does not relabel IIIb/IIIc.
