

Supplement 2: review-case panels (retained and interpreted, not hidden)
InterProScan pending

Gorilla gorilla gorilla

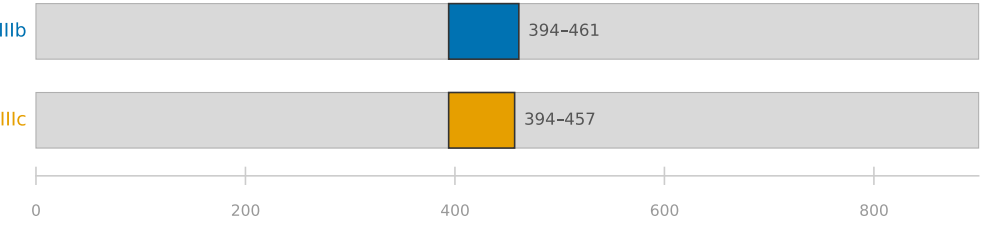

native: major_native_offset_review
normalized: same_normalized_III_slot
protein QC: protein_ambiguous_or_below_threshold_review
III similarity: window_distinct_but_short_local_identity
CDS precision: unknown_codon_phase
review: protein_QC_review_x1

Pongo abelii

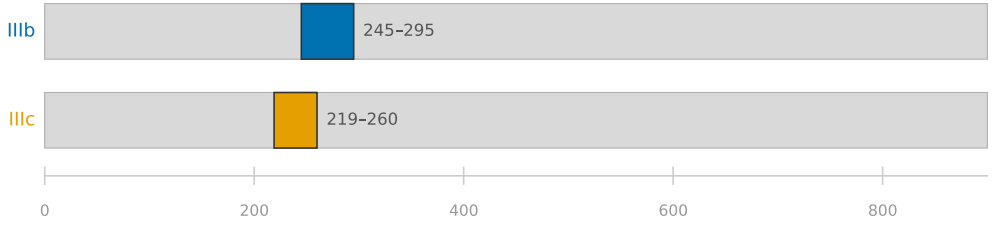

native: same_native_coordinate
normalized: same_normalized_III_slot
protein QC: protein_conflict_present_review
III similarity: full_window_nearly_identical
CDS precision: codon_split_both_sides
review: protein_QC_review_x1

Canis lupus familiaris

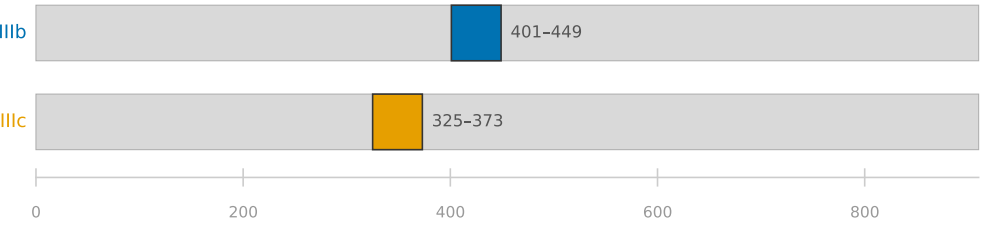

native: same_native_coordinate
normalized: same_normalized_III_slot
protein QC: protein_ambiguous_or_below_threshold_review
III similarity: ambiguous_similarity_review
CDS precision: unknown_codon_phase
review: protein_QC_review_x2

Meleagris gallopavo

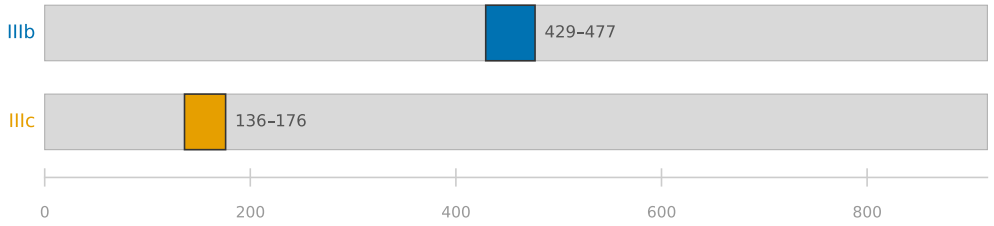

native: moderate_native_offset_review
normalized: same_normalized_III_slot
protein QC: all_selected_proteins_validated_or_transcript_only
III similarity: full_window_distinct
CDS precision: unknown_codon_phase
review: native_coordinate

Xenopus tropicalis

native: major_native_offset_review
normalized: same_normalized_III_slot
protein QC: all_selected_proteins_validated_or_transcript_only
III similarity: full_window_distinct
CDS precision: unknown_codon_phase
review: native_coordinate

Gasterosteus aculeatus

native: major_native_offset_review
normalized: same_normalized_III_slot
protein QC: all_selected_proteins_validated_or_transcript_only
III similarity: full_window_distinct
CDS precision: unknown_codon_phase
review: native_coordinate
