Supplement — MSA review-case diagnostics (cases retained and explained, not hidden)

Canis lupus familiaris [IIIb]

recommended_use: supplementary_only
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.821
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Canis lupus familiaris [IIIc]

recommended_use: supplementary_only
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_shift_review
bw gap frac: 0.0
cassette cons: 0.9896
robustness: 0.7342
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Danio rerio [IIIc]

recommended_use: main_text_with_footnote
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8215
interpretation: main with minor flags
display: main_figure_with_warning

Danio rerio [IIIb]

recommended_use: main_text_with_footnote
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8215
interpretation: main with minor flags
display: main_figure_with_warning

Gasterosteus aculeatus [IIIc]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8465
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Gasterosteus aculeatus [IIIb]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_shift_review
bw gap frac: 0.9667
cassette cons: 0.9969
robustness: 0.7023
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Gorilla gorilla gorilla [IIIc]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.821
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Gorilla gorilla gorilla [IIIb]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.821
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Homo sapiens [IIIc]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: main with minor flags
display: main_figure_with_warning

Homo sapiens [IIIb]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: main with minor flags
display: main_figure_with_warning

Meleagris gallopavo [IIIc]

recommended_use: supplementary_only
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Meleagris gallopavo [IIIb]

recommended_use: supplementary_only
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Mus musculus [IIIc]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: main with minor flags
display: main_figure_with_warning

Mus musculus [IIIb]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: main with minor flags
display: main_figure_with_warning

Oreochromis niloticus [IIIc]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8215
interpretation: main with minor flags
display: main_figure_with_warning

Oreochromis niloticus [IIIb]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8482
robustness: 0.8213
interpretation: main with minor flags
display: main_figure_with_warning

Oryzias latipes [IIIc]

recommended_use: main_text_with_footnote
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8215
interpretation: main with minor flags
display: main_figure_with_warning

Oryzias latipes [IIIb]

recommended_use: main_text_with_footnote
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_ambiguous_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8215
interpretation: main with minor flags
display: main_figure_with_warning

Pongo abelii [IIIb]

recommended_use: supplementary_only
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_conflict_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.7915
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Pongo abelii [IIIc]

recommended_use: supplementary_only
native coord: same_native_coordinate
normalized slot: same_normalized_III_slot
protein evidence: protein_conflict_review
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.791
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Takifugu rubripes [IIIc]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8965
interpretation: main with minor flags
display: main_figure_with_warning

Takifugu rubripes [IIIb]

recommended_use: main_text_with_footnote
native coord: moderate_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8497
robustness: 0.8965
interpretation: main with minor flags
display: main_figure_with_warning

Xenopus tropicalis [IIIc]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.3636
cassette cons: 0.8441
robustness: 0.896
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel

Xenopus tropicalis [IIIb]

recommended_use: supplementary_only
native coord: major_native_offset_review
normalized slot: same_normalized_III_slot
protein evidence: protein_validated
MSA projection: msa_boundary_projected_with_minor_gaps
bw gap frac: 0.2485
cassette cons: 0.8434
robustness: 0.8546
interpretation: supplement/review species, interpreted separately
display: supplement_review_panel
