

BCL2L1 · *Mus musculus*
NP_001276668.1 · 1 internal coding-exon boundaries · 1 exact domain edge
Where do internal coding-exon boundaries fall relative to annotated domain edges?

Representative domains

Coding exons

Boundary class

Candidates

1 50 100 150 200 235

Primary protein position (aa)

Exact domain edge Coding exon

Near-domain-edge threshold: 5 aa
