

Mus Musculus · 2 annotated transcript(s) · primary NM_011202.3 -> NP_035332.1 · 597 aa · transcribed right to left on the minus strand · panel A in nucleotides, panel B in amino acids

A

NP_001103462.1
NM_001109992.1
curated · 15 coding exons

■ coding exon of the primary transcript — intron / transcription direction

NP_001103462.1
NM_001109992.1
1 shifted

593 aa

coding exon of the primary model
 shifted exon boundary (same exon, different CDS end)

shared genomic exon (identical CDS interval)
